ePatch[™]

Extended Wear Holter Monitoring

New Medicare Codes for Extended Wear Holter
are Now in Effect for 2021

Experience the Difference

Optimized for Practice Workflow

- Simple patch application, enrollment and activation with no battery charging needed at practice
- Available as a telehealth solution via direct mailing of devices to patients
- Reports are easily accessible for review anytime through our secure data portal

Easy Use for Patients

- Engineered to maximize compliance for up to 14 days with replacement patches in each kit
- Alternative wear options for different patient types include the new FLEX or Lead Wire Adapter
- Wearable in shower, during exercise and while sleeping

Robust Insights to Inform Care Decisions

- Comprehensive reports identify arrhythmia irregularities including AF, SVT, VT, Pause, and Heart Block
- Specialized features, including PVC Morphology and 14-Day Heart Rate Trending, help deliver confidence in clinical interpretation*
- Full narrative summaries are provided for all reports by certified cardiac technicians

EMR / EHR Integration

Available from BioTel Heart

- Order ePatch...
 - Review patient data...
 - Interpret reports...
- ...directly from your EMR system!**

In response to the 2021 Medicare codes...

Service type

Split Bill

Minimal burden to your staff

How Billing Works

BioTel Heart provides ePatch sensor, accessories and consumables, clinical analysis of data and report generation.

BioTel Heart bills patient insurance for Technical component and the practice bills patient insurance for the Professional review and hook-up (if applicable).

Professional: 93248

We offer flexible business models to meet your specific practice's individual needs.

Fee-For-Service

Greater overall control of the process and patient pathway

BioTel Heart provides ePatch sensor, accessories and consumables, clinical analysis of data and report generation.

BioTel Heart bills the practice a fee for these services and the practice bills the patient insurance for the Global code.

Direct Buy

Turnkey online ordering option that delivers flexible buy-as-you-go convenience

Practice orders kits that include a single-use ePatch sensor, patient support and a clinical analysis package that eliminates the need for your practice to hire trained Holter staff.
